

## Amennone Cero

Banks do not lend money. Banks invite and enable you, the living being, to authorize the release of monies credited to a legal bond which was created shortly after you were born. Said bond is evidenced by means of the berth certificate or legal name thereon. Said legal name is an artificial entity/legal fiction of which you are absolutely NOT authorized to use for any purpose by its corporate owner/possessor.

It is illegal to use legal fictions. No exceptions.

Use of a legal fiction is actual theft of intellectual property possessed by a corporation.

Wow! What a brilliant scam now laid waste!
