Who are you *Someone's Calling?* Are you the NAME? As long as we use the NAME and the privileges (LIE SENSE, authorisation, bank account, ID) we are contracted with the system! HE WHO TAKE THE BENEFIT MUST BEAR THE BURDEN! As long as WE use THE NAME we have to bear the burden! ONLY letting go THE NAME and all privileges will stop the contract with the system!

The only way to get over all legal/law question is to comprehend 1st and 3rd party, where consent happen and refuse everything fictional! SENSE or NON SENSE ... very simple! There is no remedy within the system/law the only way to get remedy is to let go everything from the system ... for this we have to comprehend WHAT the system really is like emoticon The problem will never lead to the remedy ONLY the SOURCE of the problem.
